PETITION PURSUANT TO 37 CFR 1.84

Applicant(s) petitions for the inclusion of color photographs in the
above-referenced patent application.

Photographs are required to provide a full and accurate appreciation of
the colorimetric values and their respective relationships as set forth with the present
invention. Pen and ink drawings can only approximate the features of colorimetric
values whereas the photographic images are more visually exact, allowing subtle details
to be immediately comprehended and reliably judged.

Forming part of this petition are the following:

1) Three formal copies of each of the four sheets of informal drawings
containing copies of photographs filed with the patent application. All of the sheets of
drawings bearing photographic images are in specific compliance with 37 CFR 1.84(b).

2) Authorization to charge to Eastman Kodak Company Deposit
Account No. 05-0225 the fee required by 37 CFR 1.17(h).

A duplicate copy of this letter is enclosed.
